THE BASICS

Who and What You Need to Know for the Home Purchasing Process

REALTOR®

A **REALTOR®** is a licensed real estate agent and a member of the **NATIONAL ASSOCIATION OF REALTORS®**, a real estate trade association. **REALTORS®** also belong to their state and local **ASSOCIATION OF REALTORS®**.

REAL ESTATE AGENT

A real estate agent is licensed by the state to represent parties in the transfer of property. Every **REALTOR®** is a real estate agent, but not every real estate agent has the professional designation of a **REALTOR®**.

MULTIPLE LISTING SERVICE (MLS)

The **MLS** is a database of properties listed for sale by **REALTORS®** who are members of the local **ASSOCIATION OF REALTORS®**. Information on an **MLS** property is available to thousands of **REALTORS®**.

LISTING AGENT (FOR SELLER)

A key role of the listing agent **OR** broker is to form a legal relationship with the homeowner to sell the property and place the property in the Multiple Listing Service.

BUYER'S AGENT

A key role of the buyer's agent **OR** broker is to work with the buyer to locate a suitable property and negotiate a successful home purchase.

ESCROW OFFICER

A disinterested 3rd party that handles funds, title insurance and signing of loan documents.

LENDER

The lender works with the buyer to arrange financing for the purchase of a home.

APPRAISER

Inspects the property and determines the comparable price of the home.

HOME INSPECTOR

Inspects the property and works directly for the buyer.

COMMITMENT IS A TWO-WAY STREET

Your **REALTOR®** will make a commitment to spend valuable hours finding the right home for you: researching listings, previewing properties, visiting homes with you, and negotiating your contract. Honor that commitment by staying with the **REALTOR®** you've selected until you purchase your home. Be sure your **REALTOR®** accompanies you on your first visit to all new homes and open houses, too.

ADVANTAGES OF SELLING WITH A REALTOR®

PRICING

By providing valuable information on local market conditions, your **REALTOR®** will help you price your property realistically and fairly. You will also be informed of changes in the market that may affect the sale of your property.

ADVERTISING

Exposure of your property is key to obtaining a quick sale in today's market. When you use an agent, he OR she will aggressively market your home through highly targeted advertising, aiming to reach as many potential buyers as possible.

By utilizing a variety of marketing tools, including Multiple Listing Services, advertisement in trade magazines, internet, and national referral networks, your **REALTOR®** will ensure that your home is sold expediently.

SCREENING

Finding the right buyer is the ultimate goal of selling a property. Hence, the real estate professional will only show your property to serious, qualified buyers.

A **REALTOR®** has the expertise to research and investigate all potential buyers, exclusively managing the time-consuming aspects of selling a home like fielding constant telephone inquiries, setting up appointments, and holding open houses.

NEGOTIATION

A **REALTOR®** can help you get top dollar for your home because negotiating is one of their areas of expertise.

Negotiating for the best terms & price, acting as a mediator to smooth over any potential conflicts between the buyer and the seller, and drawing up a legally binding contract is what you can expect from your trained professional.

CLOSING OR SETTLEMENT

Not only will your **REALTOR®** guide you through the complexity of paperwork that ensues during a home sale, but they will also keep you informed of everything from the escrow process to inspection procedures.

Your agent can monitor your transaction while it is in escrow and handle any problems that may arise.

PROFESSIONALISM

Think of a **REALTOR®** as a trained professional who has the ability to sell your property quickly and cost-effectively.

THE HOME SELLING PROCESS

A Quick 12-Step Overview of the Entire Home Selling Process

1 MEET WITH A REAL ESTATE PROFESSIONAL

There's no commitment required on your part for the initial meeting. It will be educational and help you identify your next steps.

2 ESTABLISH A PRICE

Your agent will provide a market analysis, which will help you set an asking price.

3 STRATEGIC PRICING

As difficult as it may be, it's important to review the market analysis and consider your home price objectively.

4 PREPARE THE HOME FOR SALE

View your home through the eyes of the **Buyer** and ask yourself what you'd expect. Your agent will offer some useful suggestions.

MULTIPLE LISTING SERVICE

MLS

FOR SALE

5 LISTING THE HOUSE

When everything is in place your agent will put your home on the open market. It's critical you make it as easy as possible for potential Buyers to view your home.

6 HOME SHOWINGS

Potential **Buyers** may ask to see your home on short notice. It's best to accommodate these requests, you never want to miss a potential sale.

7 OFFERS AND NEGOTIATION

If everything goes well, a Buyer and (most often the agent who represents them) will present your agent with an offer.

8 CHOOSING AN OFFER

Your agent will present the benefits and risks of each offer. You will have the opportunity to either accept OR counter any offer based on its merits.

9 UNDER CONTRACT

At this point, you and the Buyer have agreed to all of the terms of the offer and both parties have signed the agreements.

10 ESCROW OPENED

Earnest money is deposited by Buyer. Buyer will work with their mortgage provider to finalize the loan. **MAGNUS TITLE AGENCY** begins processing final purchase details.

11 HOME INSPECTION

Buyers usually perform a physical inspection and may ask you to make some repairs. Your agent will explain all of your inspection options. **See p.13**

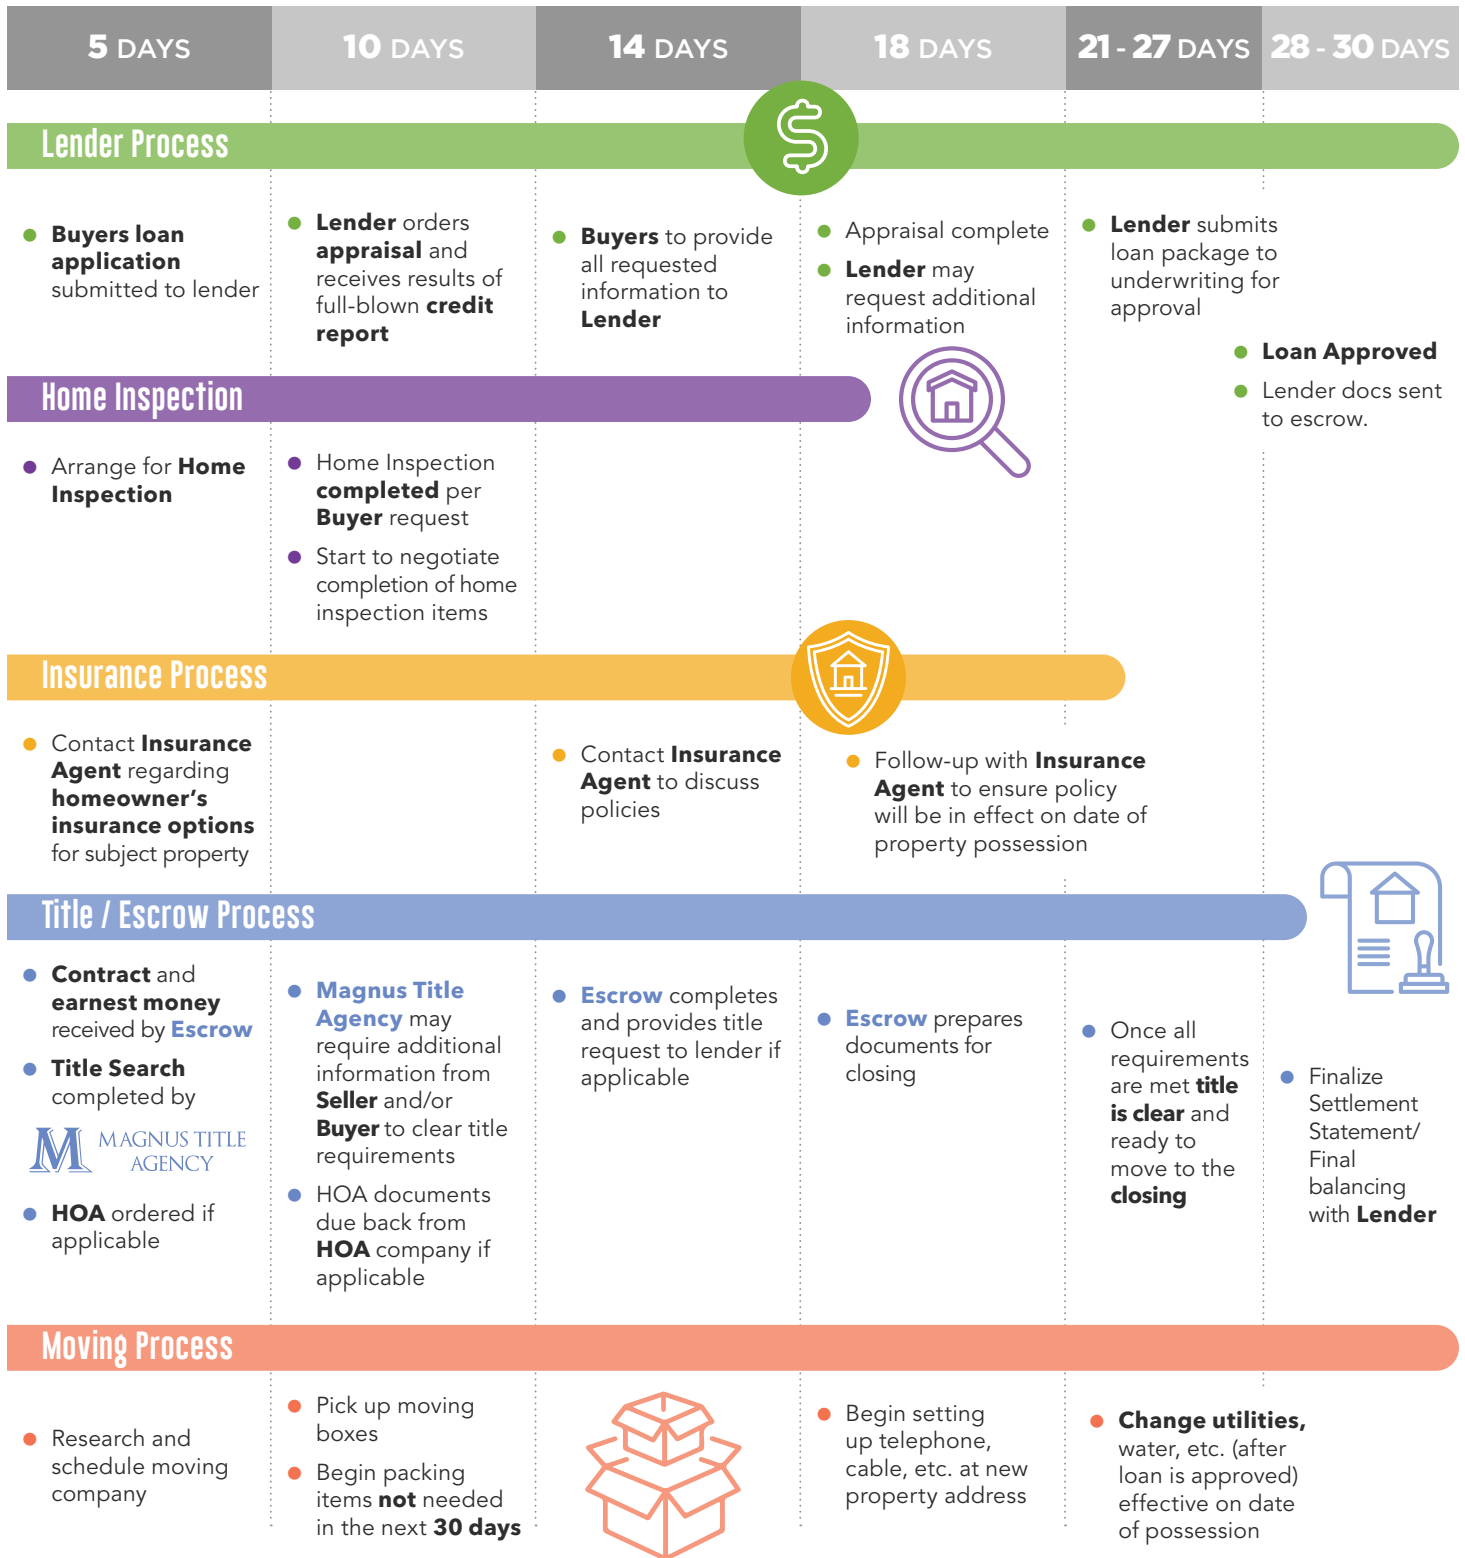

12 CLOSING

This is the transfer of funds and ownership. Depending on when the Buyer moves into the home you will need to be all packed up and ready to move.

HOME INSPECTION OVERVIEW

CONTRACTUAL RIGHTS

The **AAR Residential Resale Real Estate Purchase Contract** gives the buyer the right to conduct physical, environmental, and other types of inspections, including tests, surveys, and other studies, of the premises at the buyer's expense to determine the value and condition of the premises. The Buyer must have any inspections, test, surveys, etc., and investigate any material matters that are a concern during the inspection period. The Contract also states that the buyer shall provide Seller, upon request and at no cost to the Seller, copies of all reports concerning the premises.

PROFESSIONAL HOME INSPECTION

In a home inspection, a qualified inspector takes an in-depth, unbiased look at the premises: (1) to evaluate the physical condition, i.e., structure, construction, and mechanical systems; (2) to identify items that need to be repaired OR replaced; and (3) to estimate the remaining useful life of the major systems, equipment, and structure. The inspection gives a detailed report on the condition of the structural components, exterior, roofing, plumbing, electrical, heating insulation and ventilation, air conditioning, and interiors.

WOOD INFESTATION REPORT (WIR)

As a protective measure, lending institutions require that homes be inspected for damage from termites OR other wood-destroying insects before closing the sale of the home. A WIR is a document prepared by a licensed pest control company that informs the buyer and lending institution of the results of the inspection. For more information, contact the Arizona Structural Pest Control Commission (www.sb.state.az.us) at 602-255-3664.

WHAT IS ESCROW?

As an escrow holder, **MAGNUS TITLE AGENCY'S** duty is to act as the neutral third party. We hold all documents and all funds, pursuant to the purchase contract and escrow instructions, until all terms have been met and the property is in insurable condition. We do not work for the seller **OR** for the buyer; rather, we are employed by **ALL** parties and act only upon **Mutual Written Instruction**.

OPENING ESCROW

Occurs when your **REALTOR®** brings in a fully executed contract with your earnest money deposit.

Your Escrow Officer reviews the contract, receipts in the earnest money, orders the commitment for title insurance, and prepares the documents required to close escrow (payoffs, HOAs, etc.) All of the documents are double checked by your Escrow Officer.

WHAT IS TITLE INSURANCE?

DEFINITION: A contract where by the Insurer, for valuable consideration, agrees to indemnify the Insured for a specified amount against loss through defect of title to real estate wherein the latter has an interest either as a purchaser **OR** otherwise.

PURPOSE: Title insurance services are designed to afford real property owners, lenders, and others with interest in real estate, the maximum degree of protection from adverse title claims **OR** risks. The financial assurance offered by a title insurance policy from the title company is, of course, the primary aspect of title protection. The policy affords protection both in satisfying valid claims against the title as insured and in defraying the expenses incurred in defending such claims.

THE TITLE SEARCH

Title companies work to eliminate risks by performing a search of the public records **OR** through the title company's plant. The search consists of public records, laws and court decisions pertaining to the property to determine the current recorded ownership, any recorded liens, encumbrances **OR** any other matters of record which could affect the title to the property. When a title search is complete, the title company issues a commitment for title insurance detailing the current status of title.

TAKING TITLE

Common Ways of Holding Title to Real Property in Arizona

COMMUNITY PROPERTY

Arizona is a community property state. This is a statutory presumption that all property acquired by a married couple is community property. Community property is a method of co-ownership for married persons only. Upon death of one of the spouses, the deceased spouse's interest will pass by either a will OR intestate succession.

COMMUNITY PROPERTY WITH RIGHT OF SURVIVORSHIP

A version of holding title between married persons that vests the title to real property in the surviving spouse when it is expressly declared in the Deed. This vesting has the tax benefits of holding title as "community property" and the probate avoidance features of "survivorship rights".

JOINT TENANTS WITH RIGHT OF SURVIVORSHIP

Joint tenancy with right of survivorship is a method of co-ownership that gives title to the real property to the last survivor. Title to real property can be acquired by two OR more individuals either married OR unmarried. If a married couple acquires title as joint tenants with right of survivorship, they must specifically accept the joint tenancy to avoid the presumption of community property.

TENANTS IN COMMON

A method of co-ownership where parties do not have survivorship rights and each owns a specific undivided interest in the entire title.

SOLE AND SEPARATE

Real property owned by a spouse before marriage OR any acquired after marriage by gift, descent OR specific intent. If a married person acquires title as sole and separate property, his/her spouse must execute a Disclaimer Deed.

CORPORATION

Title may be taken in the name of a corporation provided that the corporation is duly formed and in good standing in the state of its incorporation.

GENERAL PARTNERSHIP

Title may be taken in the name of a general partnership duly formed under the laws of the state of the formation of the partnership. A partnership is defined as a voluntary association of two OR more persons as co-owners in a business for profit.

LIMITED PARTNERSHIP

A partnership formed by two OR more persons under the laws of Arizona OR another state and having one OR more general partners and one OR more limited partners. A certificate of limited partnership must be filed in the Office of the Secretary of State, a certified copy of which must be recorded.

TRUST

A trust is a fiduciary arrangement that allows a third party, or trustee, to hold assets on behalf of a beneficiary or beneficiaries. You must provide us with the name of the trust, date of the trust, and Trustee names as referenced in your Trust Agreement.

This guide is provided by [Magnus Title Agency](http://www.magnustitle.com) as a complimentary resource for real estate consumers. The Escrow Agent is not in a position to give legal advice. If you have questions OR would like opinions on which way to hold title would best benefit you, then you should obtain the assistance of an Attorney OR other qualified professional.

CLOSING 101: Tips for a Stress Free Signing

We understand how important this transaction is to you, and we are committed to consistently providing a level of service that prepares you for this final step in your real estate transaction.

6l. 298. Walkthrough(s): Seller grants Buyer and Buyer's inspector(s) reasonable access to conduct walkthrough(s) of the Premises for 299. the purpose of satisfying Buyer that any corrections or repairs agreed to by Seller have been completed, and the Premises are 300. in substantially the same condition as of the date of Contract acceptance. If Buyer does not conduct such walkthrough(s), Buyer 301. releases Seller and Broker(s) from liability for any defects that could have been discovered.

6m. 302. Seller's Responsibility Regarding Inspections and Walkthrough(s): Seller shall make the Premises available for all inspections 303. and walkthrough(s) upon reasonable notice by Buyer. Seller shall, at Seller's expense, have all utilities on, including any propane, 304. until COE to enable Buyer to conduct these inspections and walkthrough(s).

6n. 305. IRS and FIRPTA Reporting: The Foreign Investment in Real Property Tax Act ("FIRPTA") provides that, if a seller is a Foreign 306. Person, a buyer of residential real property must withhold federal income taxes up to 15% of the purchase price, unless an exception 307. applies. If FIRPTA is applicable and Buyer fails to withhold, Buyer may be held liable for the tax. Buyer agrees to perform any acts 308. reasonable or necessary to comply with FIRPTA and IRS reporting requirements and Buyer is responsible for obtaining independent 309. legal and tax advice.

7. REMEDIES

7a. 310. Cure Period: A party shall have an opportunity to cure a potential breach of this Contract. If a party fails to comply with any 311. provision of this Contract, the other party shall deliver a notice to the non-complying party specifying the non-compliance. If the 312. non-compliance is not cured within three (3) days after delivery of such notice ("Cure Period"), the failure to comply shall become a 313. breach of Contract. If Escrow Company or recorder's office is closed on the last day of the Cure Period, and COE must occur 314. to cure a potential breach, COE shall occur on the next day that both are open for business.

7b. 315. Breach: In the event of a breach of Contract, the non-breaching party may cancel this Contract and/or proceed against the 316. breaching party in any claim or remedy that the non-breaching party may have in law or equity, subject to the Alternative Dispute 317. Resolution obligations set forth herein. In the case of Seller, because it would be difficult to fix actual damages in the event of 318. Buyer's breach, the Earnest Money may be deemed a reasonable estimate of damages and Seller may, at Seller's option, accept 319. the Earnest Money as Seller's sole right to damages; and in the event of Buyer's breach arising from Buyer's failure to deliver the 320. notice required by Section 2b, or Buyer's inability to obtain loan approval due to the waiver of the appraisal contingency pursuant 321. to Section 2l, Seller shall exercise this option and accept the Earnest Money as Seller's sole right to damages. An unfulfilled 322. contingency is not a breach of Contract. The parties expressly agree that the failure of any party to comply with the terms and 323. conditions of Section 1d to allow COE to occur on the COE Date, if not cured after a cure notice is delivered pursuant to Section 7a, 324. will constitute a material breach of this Contract, rendering the Contract subject to cancellation.

7c. 325. Alternative Dispute Resolution ("ADR"): Buyer and Seller agree to mediate any dispute or claim arising out of or relating to this 326. Contract in accordance with the REALTORS® Dispute Resolution System, or as otherwise agreed. All mediation costs shall be paid 327. equally by the parties. In the event that mediation does not resolve all disputes or claims, the unresolved disputes or claims shall 328. be submitted for binding arbitration. In such event, the parties shall agree upon an arbitrator and cooperate in the scheduling of 329. an arbitration hearing. If the parties are unable to agree on an arbitrator, the dispute shall be submitted to the American Arbitration 330. Association ("AAA") in accordance with the AAA Arbitration Rules for the Real Estate Industry. The decision of the arbitrator shall be 331. final and nonappealable. Judgment on the award rendered by the arbitrator may be entered in any court of competent jurisdiction. 332. Notwithstanding the foregoing, either party may opt out of binding arbitration within thirty (30) days after the conclusion of the 333. mediation conference by notice to the other and, in such event, either party shall have the right to resort to court action.

7d. 334. Exclusions from ADR: The following matters are excluded from the requirement for ADR hereunder: (i) any action brought in the 335. Small Claims Division of an Arizona Justice Court (up to \$3,500) so long as the matter is not thereafter transferred or removed from 336. the small claims division; (ii) judicial or nonjudicial foreclosure or other action or proceeding to enforce a deed of trust, mortgage, or 337. agreement for sale; (iii) an unlawful entry or detainer action; (iv) the filing or enforcement of a mechanic's lien; or (v) any matter that 338. is within the jurisdiction of a probate court. Further, the filing of a judicial action to enable the recording of a notice of pending action 339. ("lis pendens"), or order of attachment, receivership, injunction, or other provisional remedies shall not constitute a waiver of the 340. obligation to submit the claim to ADR, nor shall such action constitute a breach of the duty to mediate or arbitrate.

7e. 341. Attorney Fees and Costs: The prevailing party in any dispute or claim between Buyer and Seller arising out of or relating to this 342. Contract shall be awarded their reasonable attorney fees and costs. Costs shall include, without limitation, attorney fees, expert 343. witness fees, fees paid to investigators, and arbitration costs.

A Resource for Real Estate Consumers

Provided by the Arizona Association of REALTORS® and the Arizona Department of Real Estate

A real estate agent is vital to the purchase of real property and can provide a variety of services in locating a property, negotiating the sale, and advising the buyer.

A real estate agent is generally not qualified to discover defects or evaluate the physical condition of property; however, a real estate agent can assist a buyer in finding qualified inspectors and provide the buyer with documents and other resources containing vital information about a prospective property.

This Advisory is designed to make the purchase of real property as smooth as possible. Some of the more common issues that a buyer may decide to

investigate or verify concerning a property purchase are summarized in this Advisory. Included in this Advisory are:

1. Common documents a buyer should review;
2. Physical conditions in the property the buyer should investigate; and
3. Conditions affecting the surrounding area that the buyer should investigate.

In addition, a buyer must communicate to the real estate agents in the transaction any special concerns the buyer may have about the property or surrounding area, whether or not those issues are addressed in this Advisory.

Reminder:

This Advisory is supplemental to obtaining professional property inspections. Professional property inspections are absolutely essential: there is no practical substitute for a professional inspection as a measure to discover and investigate defects or shortcoming in a property.

Please Note:

The property may be subject to video and/or audio surveillance. Buyer should therefore exercise caution and not discuss features or pricing while in the home.

Section 1

COMMON DOCUMENTS A BUYER SHOULD REVIEW

The documents listed below may not be relevant in every transaction, nor is the list exhaustive. Unless otherwise stated, the real estate broker has not independently verified the information contained in these documents.

1 Purchase Contract

Buyers should protect themselves by taking the time to read the Arizona REALTORS® Residential Resale Real Estate Purchase Contract and understand their legal rights and obligations before they submit an offer to buy a property.

[Residential Resale Real Estate Purchase Contract](#)
(Arizona REALTORS® Residential Resale Purchase Contract)

Contingency Waivers

The Purchase Contract contains numerous contingencies, including, but not limited to, the loan contingency, the inspection contingency, and the appraisal contingency. Should a buyer elect to waive any such contingencies in conjunction with their purchase offer, adverse consequences may result that place buyer at risk of losing their Earnest Money or incurring monetary damages if buyer decides not to purchase the property after their offer is accepted. Before offering to waive any contractual contingencies, buyers should weigh the risks and consult with independent legal counsel.

2 MLS Printout

A listing is a contractual agreement between the seller and the listing broker and may authorize the broker to submit information to the Multiple Listing Service (MLS). The MLS printout is similar to an advertisement. Neither the listing agreement nor the printout is a part of the purchase contract between the buyer and seller. The information in the MLS printout was probably secured from the seller, the builder, or a governmental agency, and could be inaccurate, incomplete or an approximation. Therefore, the buyer should verify any important information contained in the MLS.

3 The Subdivision Disclosure Report (Public Report)

A Subdivision Disclosure Report (Public Report) is intended to point out material information about a subdivision. Subdividers (any person who offers for sale or lease six or more lots in a subdivision or who causes land to be divided into a subdivision) are required to give buyers a Public Report. Read the Public Report before signing any contract to purchase a property in a

subdivision. Although some of the information may become outdated, subsequent buyers can also benefit from reviewing the Public Report. Public Reports dating from January 1, 1997, are available on the Arizona Department of Real Estate (ADRE) website.

<https://services.azre.gov/publicdatabase/SearchDevelopments.aspx>
(ADRE Search Developments)

<https://azre.gov/consumers/property-buyers-checklist-home-or-land>
(ADRE Property Buyer's Checklist)

ADRE does not verify the information in the Public Report. Therefore, the Report could be inaccurate, so it should be verified by the buyer.

4 Seller's Property Disclosure Statement (SPDS)

Most sellers provide a SPDS. This document poses a variety of questions for the seller to answer about the property and its condition. The real estate broker is not responsible for verifying the accuracy of the items on the SPDS; therefore, a buyer should carefully review the SPDS and verify those statements of concern.

A seller's disclosure obligation remains even if the buyer and seller agree that no Seller's Property Disclosure Statement will be provided.

<https://bit.ly/3HDnA0u> (AAR Sample SPDS)
<http://www.azre.gov/PublicInfo/PropertyBuyerChecklist.aspx>
(ADRE Property Buyer's Checklist)

5 Covenants, Conditions and Restrictions (CC&Rs)

The CC&Rs are recorded against the property and generally empower a homeowner's association to control certain aspects of property use within the development. By purchasing a property in such a development, the buyer agrees to be bound by the CC&Rs. The association, the property owners as a whole, and individual property owner can enforce the CC&Rs. It is essential that the buyer review and agree to these restrictions prior to purchasing a property.

<http://www.azre.gov/PublicInfo/PropertyBuyerChecklist.aspx>
(ADRE Property Buyer's Checklist)

It is the law of this state that any covenants or restrictions that are based on race, religion, color, handicap status or national origin are invalid and unenforceable. A.R.S. 32-2107.01

<https://www.aaronline.com/arizona-deed-restrictions/>
(Arizona Deed Restrictions webpage)

ADRE ADVISES: "Read the deed restrictions, also called CC&Rs (covenants, conditions and restrictions). You might find some of the CC&Rs are very strict." Buyers should consult legal counsel if uncertain of the application of particular provisions in the CC&Rs.

6 Homeowners Association (HOA) Governing Documents

In addition to CC&Rs, HOAs may be governed by Articles of Incorporation, Bylaws, Rules and Regulations, and often architectural control standards. Read and understand these documents. Also, be aware that some HOAs impose fees that must be paid when the property is sold, so ask if the purchase of the property will result in any fees. Condominium and planned community HOAs are regulated by Arizona statutes. They are not under the jurisdiction of the Department of Real Estate (ADRE). Nonetheless, the Arizona's Homeowner's Association Dispute Process is administered by the ADRE.

<http://bit.ly/2e8jdM3> (A.R.S. 33-1806)

<http://bit.ly/1rCq9kd> (ADRE HOA Information)

7 HOA Disclosures

If purchasing a resale home in a condominium or planned community, the seller (if fewer than 50 units in the community) or the HOA (if there are 50 or more units) must provide the buyer with a disclosure containing a variety of information.

<http://bit.ly/2ebBSLH> (A.R.S.33-1260); and

<http://bit.ly/2e8jdM3> (A.R.S. 33-1806)

8 Community Facilities District

Community Facilities Districts (CFDs) are special taxing districts that use bonds for the purpose of financing construction, acquisition, operation and maintenance of public infrastructure that benefits the real property owners comprising the CFD members. Roadways, public sewer, utility infrastructure and public parks are examples of the types of public infrastructure paid for by CFDs. CFDs have a Governing Board that may be the City Council acting as the board or a stand-alone board. Any member of a CFD may request disclosures from this board. Questions to ask include: the amount still owed and how many more payments are left in order to pay off the CFD for the property. It is important that you review the Detailed Property Tax Statement which will show the current amount due to the CFD.

CFDs are most commonly found on the property's detailed property tax statement from the County Tax Assessor. The local municipality or county can also be a source of CFD information.

9 Title Report or Title Commitment

The title report or commitment contains important information and is provided to the buyer by the title/escrow company or agent. This report or commitment lists documents that are exceptions to the title insurance (Schedule B Exceptions). Schedule B Exceptions may include encumbrances, easements, and liens against the property, some of which may affect the use of the property, such as a future addition or swimming pool. Make sure you receive and review all of the listed documents. Questions about the title commitment and Schedule B documents may be answered by the title or escrow officer, legal counsel, or a surveyor.

<https://www.homeclosing101.org/> (American Land Title Association)

<https://bit.ly/34KkCaQ> (CFPB - What is title insurance?)

10 Loan Information and Documents

Unless a buyer is paying cash, the buyer must qualify for a loan in order to complete the purchase. A buyer should complete a loan application with a lender before making an offer on a property if at all possible and, if not, immediately after making an offer. It will be the buyer's responsibility to deposit any down payment and ensure that the buyer's lender deposits the remainder of the purchase price into escrow prior to the close of escrow date. Therefore, make sure you get all requested documentation to your lender as soon as possible.

https://www.hud.gov/topics/buying_a_home (HUD.gov)

11 Home Warranty Policy

A home warranty [policy] is a service contract that typically covers the repair and/or replacement costs of home appliances and major systems such as heating, cooling, plumbing, and possibly other components of a home that fail due to normal usage and age. Coverage varies depending on the policy. Be aware that pre-existing property conditions are generally not covered. A home warranty may be part of the sale of the home. If so, buyers should thoroughly read the home warranty contract to understand coverage, limitations, exclusions, and costs associated with the policy.

12 Affidavit of Disclosure

If the buyer is purchasing five or fewer parcels of land (whether improved or vacant), other than subdivided land, in an unincorporated area of a county, the seller must furnish the buyer with an Affidavit of Disclosure.

<https://bit.ly/2ZLwvdX>

(AAR Sample Affidavit of Disclosure)

13 Lead-Based Paint Disclosure Form

If the home was built prior to 1978, the seller must provide the buyer with a lead-based paint disclosure form. Buyer is further advised to use certified contractors to perform renovation, repair or painting projects that disturb lead-based paint in residential properties built before 1978 and to follow specific work practices to prevent lead contamination.

<http://bit.ly/2O4pL4A> (AAR Sample Form)

<https://bit.ly/3uzq5Kb> (ADRE Lead Based Paint Information)

14 Professional Inspection Report

The importance of having a property inspected by a professional inspector cannot be over-emphasized. An inspection is visual physical examination, performed for a fee, designed to identify material defects in the property.

The inspector will generally provide the buyer with a report detailing information about the property's condition. The buyer should carefully review this report with the inspector and ask the inspector about any item of concern. Pay attention to the scope of the inspection and any portions of the property excluded from the inspection.

<https://www.homeinspector.org>

(ASHI Home Buyer's Guide)

15 County Assessors/Tax Records

The county assessor's records contain a variety of valuable information, including the assessed value of the property for tax purposes and some of the physical aspects of the property, such as the reported square footage. The date-built information in the assessor's records can be either the actual or effective/weighted age if the residence has been remodeled. All information on the site should be verified for accuracy.

Foreign Investment in Real Property Tax Act (FIRPTA) may impact the purchase of property if the legal owner(s) of the property are foreign persons or non-resident aliens pursuant to FIRPTA. If so, consult a tax advisor as mandatory withholding may apply.

Section 2

COMMON PHYSICAL CONDITIONS IN THE PROPERTY A BUYER SHOULD INVESTIGATE

Because every buyer and every property are different, the physical property conditions requiring investigation will vary.

1 Repairs, Remodeling and New Construction

The seller may have made repairs or added a room to the property. The buyer should feel comfortable that the work was properly done or have an expert evaluate the work. Request copies of permits, invoices or other documentation regarding the work performed.

USE OF LICENSED CONTRACTORS

A contractor's license is required for work performed on a property unless the aggregate contract price, including labor and material, is less than \$1,000, the work performed is of a "casual or minor nature," and no building permit is required. An unlicensed property owner may also perform work themselves if the property is intended for occupancy solely by the owner. If, however, the property is listed or offered for sale or rent within one year of the completed work, it is considered prima facie evidence that the owner performed the work for purposes of sale or rent.

Owners of property who are acting as developers, who improve structures or appurtenances to structures on their property for the purpose of sale or rent, and who contract with a licensed general contractor must identify the licensed contractors' names and license numbers in all sales documents.

<https://www.tucsonaz.gov/pdsd/records> (Tucson Building permit records)

Other cities- search Planning & Development

2 Square Footage

Square footage on the MLS printout or as listed by the county assessor's records is often only an estimate and generally should not be relied upon for the exact square footage. An appraiser or architect can measure the property's size to verify the square footage.

If the square footage is important, you should have it confirmed by one of these experts during the inspection period in a resale transaction and prior to executing a contract on a new home transaction.

<https://difi.az.gov/industry/RealEstateAppraisers> (Licensed Real Estate Appraisers)

3 Roof

If the roof is 10 years old or older, a roof inspection by a licensed roofing contractors highly recommended.

www.azroofing.org (Arizona Roofing Contractors Association)

<https://roc.az.gov/before-hire> (Before you Hire a Contractor)

4 Swimming Pools and Spas

If the property has a pool or a spa, the home inspector may Exclude the pool or spa from the general inspection so an inspection by a pool or spa company may be necessary.

<https://www.aaronline.com/2010/10/27/pool-barrier-law-contact-information/> (AAR-Pool Barrier Laws & Information)

[36-1681 - Pool enclosures; requirements; exceptions; enforcement \(azleg.gov\)](https://www.azleg.gov) (A.R.S. 36-1681 Swimming Pool Enclosures)

5 Septic and Other On-Site Wastewater Treatment Facilities

If the home is not connected to a public sewer, it is probably served by an on-site wastewater treatment facility (conventional septic or alternative system). A qualified inspector must inspect any such facility within six months prior to transfer of ownership. For information on current inspection and transfer of ownership requirements, contact the specific county environmental/health agency where the property is located or the Arizona Department Environmental Quality (ADEQ).

<https://azdeq.gov/OSWW-NOT> (ADEQ-AZ Statewide Inspection Program File a Notice of Transfer Online)

6 SEWER

Even if the listing or SPDS indicates that the property is connected to the city sewer, a plumber, home inspector, or other professional should verify it. Some counties and cities can perform this test as well.

7 Water/Well Issues

The property may receive water from a municipal system, a private water company, or a well. You should investigate the availability and quality of the water to the property, as well as the water provider. A list of Arizona's water companies is available at the Arizona Corporation Commission.

<https://www.azcc.gov/utilities/water>
(Arizona Corporation Commission-Utilities Water)
<https://new.azwater.gov/aaws/statutes-rules>
(Assured and Adequate Water Supply)

Adjudications: Arizona is undertaking several Stream Adjudications, which are court proceedings to determine the extent and priority of water rights in an entire river system.

For information regarding water uses and watersheds affected by these adjudications, and the forms upon sale of the property, visit the Department of Water Resources online.

<https://new.azwater.gov/adjudications>

CAGRDs: The Central Arizona Groundwater Replenishment District (CAGRD) functions to replenish groundwater used by its members, individual subdivisions and service areas of member water providers. Homeowners in a CAGRD pay an annual assessment fee which is collected through the county property tax process based the amount of ground water served to member homes.

www.cagrd.com
(Central Arizona Ground Water Replenishment District)

8 Soil Problems

The soil in some areas of Arizona has “clay-like” tendencies, sometimes referred to as “expansive soil.”

Other areas are subject to fissure, subsidence and other soil conditions. Properties built on such soils may experience significant movement causing a major problem.

If it has been disclosed that the property is subject to any such soil conditions or if the buyer has any concerns about the soil condition or observes evidence of cracking, the buyer should secure an independent assessment of the property and its structural integrity by a licensed, bonded, and insured professional engineer.

9 Previous Fire/Flood

If it is disclosed there has been a fire or flood on the property, a qualified inspector should be hired to advise you regarding any possible future problems as a result of the fire or flood damage and/or any subsequent repairs. For example, if the property was not properly cleaned after a flood, mold issues may result. Your insurance agent may be able to assist you in obtaining information regarding fire, flood, or other past damage to the property.

10 Pests

Cockroaches, rattlesnakes, black widow spiders, scorpions, termites and other pests are common in parts of Arizona. Fortunately, most pests can be controlled with pesticides.

Scorpions: Scorpions, on the other hand, may be difficult to eliminate. If buyer has any concerns or if the SPDS indicates the seller has seen scorpions or other pests on the property, seek the advice of a pest control company.

Bed Bugs: Infestations are on the rise in Arizona and nationally.

Roof Rats: Roof Rats have been reported in some areas by Maricopa County Environmental Services.

Termites: Consumer Information is available from the Arizona Department of Agriculture.

Bark Beetles: Bark beetles have been reported in some forested areas.

11 Endangered & Threatened Species

Certain areas in the state may have issues related to federally listed endangered or threatened species that may affect land uses. Further information may be obtained on the U.S. Fish and Wildlife website or by contacting the appropriate planning/development service department.

[Arizona Ecological Services Field Office | U.S. Fish & Wildlife Service \(fws.gov\)](#)

(Arizona Ecological Services) (Arizona Endangered Species) _

12 Death and Felonies on the Properties

Arizona law states that sellers and real estate licensees have no liability for failure to disclose to a buyer that the property was ever the site of a natural death, suicide, murder or felony.

This information is often difficult to uncover; however, the local law enforcement agency may be able to identify incidents related to a property address.

<http://bit.ly/2lo53MZ> (A.R.S. § 32-2156)

13 Indoor Environmental Concerns

Attention has been given to the possible health effects of mold in homes, apartments and commercial buildings. Certain types of molds may cause health problems in some people while triggering only common allergic responses in others.

Mold is often not detectable by a visual inspection. To determine if the premises you are purchasing, or leasing contains mold or airborne health hazards, you may retain an environmental expert to perform an indoor air quality test. This is particularly important if any of the inspection reports or disclosure documents indicate the existence of past or present moisture, standing water, visible water stains, or water intrusion in the Premises.

The Arizona Department of Health Services, Office of Environmental Health, states:

“If you can see mold, or if there is an earthy or musty odor, you can assume you have a mold problem.”

Imported Drywall: There have been reports of problematic drywall, produced in China, used in Arizona homes. Residents in homes with problem drywall report health issues such as respiratory irritation, and other problems such as copper corrosion and sulfur odors. Visit the Consumer Product Safety Commission website for more information.

Radon Gas and Carbon Monoxide: Radon gas and carbon monoxide poisoning are two of the more common and potentially serious indoor air quality (IAQ) concerns. Both of these concerns can be addressed by the home inspector, usually for an additional fee. For information on radon levels in the state, visit Arizona Radiation Regulatory Agency online.

Drug labs: Residual contamination arising from the illicit manufacture of methamphetamine and other drugs carried out in clandestine drug laboratories presents a serious risk of harm to human and environmental health.

Other: For information on other indoor environmental concerns, the EPA has a host of resource materials and pamphlets online.

14 Property Boundaries

If the property boundaries are of concern, a survey may be warranted. For example, a survey may be advisable if there is an obvious use of property by others, i.e., a well-worn path across a property and/or parked cars on the property or fences or structures of adjacent property owners that appear to be built on the property. For more information, visit the Arizona Professional Land Surveyors online. A search for surveyors may be found online at the Board of Technical Registration.

https://www.azpls.org/secure/find_surveyor.asp

(AZ BTR Land Surveyors)

15 Flood Insurance/Flood Plain Status

Your mortgage lender may require you to purchase flood insurance in connection with your purchase of the property. The National Flood Insurance Program provides for the availability of flood insurance and established flood insurance policy premiums based on the risk of flooding in the area where properties are located. Changes to the federal law (The Biggert-Waters Flood Insurance Reform Act of 2012 and the Homeowner Flood Insurance Affordability Act of 2014, in particular) will result in changes to flood insurance premiums that are likely to be higher, and in the future, may be substantially higher, than premiums paid for flood insurance prior to or at the time of sale of the property. As a result, purchasers of property should not rely on the premiums paid for flood insurance on the property previously as an indication of the premiums that will apply after completion of the purchase. In considering purchase of the property, you should consult with one or more carriers of flood insurance for a better understanding of flood insurance coverage, current and anticipated future flood insurance premiums, whether the prior owner's policy may be assumed by a subsequent purchase of the property, and other matters related to the purchase of flood insurance for the property. If community floodplain information is not available for a specific property, and in order to obtain flood insurance, it may be necessary to have an elevation survey and obtain an elevation certificate. This is necessary to determine a properties insurability and premium rate. You may also wish to contact the Federal Emergency Management Agency (FEMA) for

more information about flood insurance as it relates to the property.

16 Insurance (Claims History)

Many factors affect the availability and cost of homeowner's insurance. Property owners may request a five-year claims history from their insurance company, an insurance support organization or consumer reporting agency.

[Consumer Resources \(naic.org\)](#) (Helping You Navigate Insurance and Make Better Informed Decisions)

17 Other Property Conditions

Plumbing: Check functionality.

Cooling/Heating: Make sure the cooling and heating systems are adequate. If it is important to you, hire a qualified heating/cooling inspector.

Electrical Systems: Check for functionality and safety.

Section 3

CONDITIONS AFFECTING THE AREA SURROUNDING THE PROPERTY THE BUYER SHOULD INVESTIGATE

Every property is unique; therefore, important conditions vary.

Environmental Concerns

It is often very difficult to identify environmental hazards. The Arizona Department of Environmental Quality (ADEQ) website contains environmental information regarding the locations of open and closed landfills (Solid Waste Facilities), wildfire information, as well as air and water quality

information, as well as air and water quality information (and more).

Approximately two-thirds of the City of Scottsdale is affected by the Environmentally Sensitive Land Ordinance (ESLO), which requires some areas on private property be retained in their natural state and designated as National Area OpenSpace(NAOS).

3 Superfund Sites

There are numerous sites in Arizona where the soil and groundwater have been contaminated by improper disposal of contaminants. Maps may be viewed on ADEQ's website to see if a property is in an area designated by the ADEQ as requiring cleanup.

<https://www.epa.gov/superfund> (EPA Superfund)

4 Freeway Construction and Traffic Conditions

Although the existence of a freeway near the property may provide highly desirable access, sometimes it contributes to undesirable noise. To search for roadway construction and planning, visit the Arizona Department of Transportation (ADOT) website.

5 Crime Statistics

Crime statistics, an imperfect measurement at best, provide some indication of the level of criminal activity in an area.

<https://communitycrimemap.com/> (Crime Statistics - All Arizona Cities)

6 Sex Offenders

Since June 1996, Arizona has maintained a registry and community notification program for convicted sex offenders. Prior to June 1996, registration was not required, and only the higher-risk sex offenders are on the website. The presence of a sex offender in the vicinity of the property is not a fact that the seller or real estate broker is required to disclose.

7 Forested Areas

Life in a forested area has unique benefits and concerns. As with other natural disasters that affect the United States in any given year including flooding, tornados, hurricanes and earthquakes, having information regarding wildfire risk will be crucial for Buyers here in the Southwest. To get the most up to date information on the community you are seeking to purchase in, search by city name, zip code and/or contact county/city fire authority for more information on issues particular to a community.

8 Military and Public Airports

The legislature has mandated the identification of areas in the immediate vicinity of military and public airports that are susceptible to a certain level of noise from aircraft. The boundaries of these areas have been plotted on maps that are useful in determining if a property falls within one of these areas. The maps for military and public airports may be accessed on the Arizona Department of Real Estate (ADRE) website. Additionally, the boundaries of military and public airports in Maricopa County may be viewed on the county website. These maps are intended to show the area subject to a preponderance of airport-related noise from a given airport. Periodic over-flights that may contribute to noise cannot usually be determined from these maps.

Vacant land or lots may be for sale within areas of high noise or accident potential zones. Because the zoning of these lots may conflict with the buyer's ability to develop the property, the buyer should verify whether development is prohibited Zoning regulations for these areas, may be found at A.R.S. §28-8481.

ADRE ADVISES:

"Call the school district serving the subdivision to determine whether nearby schools' area accepting new students. Some school districts, especially in the northwest of the greater Phoenix area, have placed a cap on enrolment. You may find that your children cannot attend the school nearest you and may even be transported to another community."

OTHER METHODS OF GETTING INFORMATION ABOUT A PROPERTY

Drive Around the Neighborhood

Buyers should always drive around the neighborhood, preferably on different days at several different times of the day and evening, to investigate the surrounding area.

Talk to the Neighbors

Neighbors can provide a wealth of information. Buyer should always talk to the surrounding residents about the neighborhood and the history of the property the buyer is considering for purchase.

Investigate Your Surroundings

Google Earth is an additional method to investigate the surrounding area: [Google Earth](https://www.google.com/earth/)

Market Conditions Advisory

The real estate market is cyclical and real estate values go up and down. The financial market also changes, affecting the terms on which a lender will agree to loan money on real property. It is impossible to accurately predict what the real estate or financial market conditions will be at any given time.

The ultimate decision on the price a buyer is willing to pay and the price a seller is willing to accept for a specific property rest solely with the individual buyer or seller. The parties to a real estate transaction must decide on what price and terms they are willing to buy or sell considering market conditions, their own financial resources and their own unique circumstances.

The parties must, upon careful deliberation, decide how much risk they are willing to assume in a transaction. Any waiver of contingencies, rights or warranties in the Contract may have adverse consequences. Buyer and seller acknowledge that they understand these risks.

Buyer and Seller assume all responsibility should the return on investment, tax consequences, credit effects, or financing terms not meet their expectations. The parties understand and agree that the Broker(s) do not provide advice on property as an investment. Broker(s) are not qualified to provide financial, legal, or tax advice regarding a real estate transaction. Therefore, Broker(s) makes no representation regarding the above items. Buyer and seller are advised to obtain professional tax and legal advice regarding the advisability of entering into this transaction.
