The Kakazu Family

MVP Real Estate is absolutely wonderful to work with. They were highly recommended to us by friends that raved about their professionalism and trust. And that is exactly what was delivered when we worked with MVP. As a first-time home buyer, you're unsure of the process and feel a little intimidated, but MVP made this process run seamlessly. Their attentiveness, patience and honesty go unmatched, and they definitely go above and beyond for their clients. We can't thank MVP enough for all their hard work, dedication. We will continue to recommend MVP Real Estate to family and friends.

The Ordaz family

I was introduced to MVP Real Estate by a friend who had used them previously. MVP Real Estate also had helped my Sister with her First home purchase as well. When my husband and I decided to purchase our second home we reached out to MVP Real Estate. The team were very professional, they know what they are doing and walked us through every single step and made sure to explain everything to us. What I loved the most is that anytime I had a question I would call or text and they were always quick to answer. They listen to our needs. I highly recommend.

Let me begin by saying that if you can go through the meticulous and roller-coaster ride of emotions in buying your first house, then you can tackle anything in your life. Especially if you have wonderful professionals like MVP Real Estate in your corner. I seriously doubt any realtor out there is as energetic, knowledgeable, and thorough as the real estate professionals at MVP Real Estate. They practically became a member of our family for life! The buying process would have been a complete nightmare if it wasn't for MVP and their positive disposition. We tried other realtors before contacting MVP Real Estate and quite frankly I'm not sure how they can call themselves real estate agents if they do hardly anything to help. MVP on the other hand is far above and beyond all the rest. Wonderful people and a complete joy to have worked with them.

The Tejada Family

Let's be honest, Buying a home for the first time is no easy task. It will be exciting at times and confusing most of the time. And if you are as high maintenance as I am, then you had best make sure you get yourself a very patient and understanding agent. MVP Real Estate was just that. I can't remember how many times I called them freaking out during the process. They always found a way to calm me down and assured me that we were doing everything as it should be done. Thank you MVP Real Estate for being part of this process in my life. I appreciate all the hard work you put into the purchase of my very first home!

Google

The Dorame Family

I can go on and on about how AMAZING MVP Real Estate is! Such a kindhearted, hardworking and knowledgeable group of people. I am a first time home buyer and the process was new to me. MVP made sure to explain to me what would happen next and they were there every step of the way! They negotiated with the seller which helped me tremendously financially. If you are looking for a reliable, responsive and knowledgeable agents then you should definitely reach out to MVP Real Estate! I will come back to the MVP team because they are amazing at what they do and they truly care about helping people achieve their goals of homeownership. Thank you MVP Real Estate for all you did for me.

MVP REAL ESTATE STRATEGY

PRICING | **PREPARATION** | **PRESENTATION**

PRICING

Determining the price of your home is something not to be taken lightly. It takes strategy, market knowledge, and experience to make sure it is done right. The impact of incorrect pricing can have immense consequences on the sale of your home. Here at MVP Real Estate we use industry-leading data sources, coupled with our extreme market knowledge of your neighborhood to determine the correct listing price the current market conditions. The first impression of your home to potential buyers is crucial.

PRICING IT RIGHT FROM THE START IS KEY!

UNDER PRICED

- Decreases your future buying power.
- Leaves money on the table by undervaluing your house.
- Buyers may assume something is wrong.

MARKET VALUE

- Better chance of a bidding war.
- More likely to get an offer at or above list price.
- Likely to sell quickly.

OVERPRICED

- May need a price drop, which can raise red flags.
- Likely to sit on the market longer.
- High price tag may deter buyers.

PREPARATION

We want to make sure that we are putting our clients in the best position to maximize their profit from the sale of their home. In order to do so, we create a game plan to ensure your home stands out of the crowd.

HERE ARE THE KEY AREAS THAT WE FOCUS ON TO GET YOUR HOME PREPARED

Vendor Consultations

For renovations, it is fundamental to obtain bids and interview contractors to choose the most cost-effective and time-efficient options to get the work done. We have several trusted contractors to help us with the appropriate renovations for your home.

Upgrades/Repairs

Pride in ownership can be the difference in getting the right offer. We make sure that all agreed-upon minor and major repairs are completed before the home goes on the market. This scope of this work will be laid out with your game plan.

Staging

Furnishing your home with the appropriate and space-efficient designs and finishes are key to showcasing the home's flow and functionality to potential buyers. MVP Real Estate provides staging complimentary for our clients.

PRESENTATION

This is where we separate ourselves from the rest. MVP Real Estate prides itself in being the industry trendsetters for presenting your home to potential buyers across all platforms.

Production Day

We take an entire day to produce the highest quality content that will help showcase your home to potential buyers.

MVP Media

We have an in-house media team with some of the best cinematographers/Directors in the Bay Area that work exclusively with MVP.
