STEP ONE

Interview Your Agent

What to look for in an real estate agent

The right real estate agent should have an in depth understanding of your goals, your market, and a track record for finding buyers at the price and terms their clients want.

Ask questions to determine if I'm the right fit:

- What's your experience selling?
- What's your avg. sale-to-list price ratio?
- How will you determine a price?
- What should I do to prepare my home?
- How will you market my home?

STEP TWO

Prepare Your Home

Property walk through

Your agent should walk the home with you to determine what repairs and upgrades are worthwhile to make before listing. Thinking about your home from a future buyer's perspective.

Are home repairs necessary

Most buyers gravitate towards homes that are move-in ready.

Making repairs ahead of listing your home will boost the sale price & keep the sales process moving quickly once a buyer shows interest.

Small improvements that make a big difference

- Deep cleaning
- Decluttering & depersonalizing
- Making minor repairs
- Sprucing up the exterior

"Buyers decide in the first 8 seconds of seeing a home if they're interested in buying it. Get out of your car, walk in their shoes and *see what they see within the first 8 seconds.*"

Strategic Pricing

01

Your property attracts the most interest when it is first listed.

02

Properties that are priced correctly from the beginning typically sell for more in the end.

03

Overpriced homes sit on the market longer.

Your agent should *thoroughly evaluate the market* to determine the value of your home and price it appropriately.

PRICING STRATEGIES PRICING STRATEGIES

BELOW MARKET VALUE

- + The home will generate interest
- + A quicker sale is likely
- + May receive multiple offers
- Risk of selling at a lower price

AT MARKET VALUE

- + No appraisal issues
- + Buyers will recognize a fair price
- + Listing will appear on more relevant buyer searches

OVER MARKET VALUE

- Home will take longer to sell
- More hesitation from buyers
- The home might not appraise by the buyer's lender

Modern Marketing

It's an agent's job to bring the seller a buyer at the *terms & price* they want. A mix of *digital & traditional* marketing is how to achieve it.

01 DIGITAL MARKETING

More than likely, the first place a buyer will see your home is on the internet.

Work with an agent who will maximize your home's visibility online with digital marketing including:

- Photo & video
- Social media marketing
- Email marketing
- Targeted ads

02 TRADITIONAL MARKETING

Traditional marketing strategies are also important for reaching the right buyer

Work with an agent who offers robust traditional marketing strategies, including:

- Open houses & showings
- Broker previews
- Postcards to neighbors
- Yard sign captures

02

Contingencies

The buyer orders an inspection to ensure the property's condition is clear of major issues.

03

Loan Approval & Appraisal

The lender orders an appraisal to confirm the home's value meets or exceeds the purchase price. The lender approves the buyer for the mortgage.

04

Packing & Moving

The owner can start packing up their belongings and planning to move! Congratulations!

05

Final Walkthrough

Before closing, the buyer conducts a final walkthrough to confirm the property's condition is as-expected.

06

Closing Day

The buyer signs documents, pays closing costs, receives keys, and takes possession, while the seller receives the sale proceeds.
