

# Things to Look for During the *Home Inspection*

**01.**

Ask what specific systems and components they will be inspecting.

**02.**

Pay close attention to the inspector's findings and take notes

**03.**

Common things to look for during a home inspection include the roof, attic, foundation, walls, electrical wiring, plumbing, windows, doors, and HVAC system

**04.**

The inspector will also check for signs of pests and mold
